

## STATE AID ROADS UNTIL NOV. 1 ARE SOLD

Legislative Committee, of  
State of Illinois, at Springfield,  
Sept. 21, 1920.

An evening session of the legislative committee on roads, held at the 80-80 principle, whereby the state would contribute to the improvement of the roads by matching state and local funds to provide to the method contemplated by the Townsend highway bill, which would place the work in the hands of a commission, the committee on good roads of the Illinois Bankers' association want to record at its meeting held in Chicago Sept. 16. W. G. Edens, vice president of the Central Trust company, Chicago, is the chairman of the committee and the other members, representing the various divisions of the state, are as follows: H. S. Cable, Rock Island Savings bank, Rock Island; W. E. Alsmuth, New Farmers' State bank, Mason City; F. O. Crego, First National bank, De Kalb; G. D. Stroker, Wacoona Trust & Savings bank, Wacoona; J. H. Standart, Oglesby State bank, Oglesby; R. N. Parrish, Edgar County National bank, Paris; A. E. Kenney, Citizens' National bank, Decatur; J. T. Wilson, East Condit & Grout, Winchester; J. F. Schmidt, First National bank, Waterloo; J. B. Jackson, Anna National bank, Anna.

Cable on Committee.  
A committee consisting of S. E. Bradt, Illinois road commissioner; Messrs. H. S. Cable, A. M. Kenney and J. H. Standart, was appointed for the purpose of preparing resolutions to be submitted to congress in the same manner as was done by the Mississippi Valley association. These resolutions will also be presented to the convention of the American Bankers' association, which will be held in Washington in October, for consideration by the agricultural commission of that body.

The committee adopted a resolution recommending that until there is an improvement in the money market which would permit of the sale of the \$50,000,000 bond issue under more favorable conditions, legislation be enacted whereby a certain sum be appropriated by the state for the purpose of taking over the earth and gravel and macadam roads included in the state bond issue system, for maintenance and providing for their patrolling and official marking, preparatory to the hard surfacing. It being estimated that for such work approximately \$1,000,000 a year could be taken from the automobile license fees collected by the state, over and above the amount desired to meet federal aid appropriations.

The committee also adopted a resolution recommending that early congressional action taken toward a further federal appropriation of \$100,000,000 annually, over a period of five years, in order that the program of road construction by the states may be continued.

Local Interest Needed.  
It was the consensus of opinion that local interest, which is most important in the successful carrying out of the highway improvement plan, can best be maintained through the cooperation of congress with the state highway departments. In this connection the chairman read the following resolution which was unanimously adopted by the Mississippi Valley association at its convention in December, 1919, and by action of that convention, the petition was subsequently presented to the committee.

## What Should City Plan Include to Benefit Rock Island Most? Send Suggestions to The Argus

Improve the viaduct at Fourteenth avenue and Forty-sixth street to be more artistic, substantial, and curvable bridge.

Because of the lack of sidewalks on either side, the weak appearing viaduct at Fourteenth avenue, which connects Rock Island and Moline, should be improved both to give more service and for the aesthetic sense, Walter A. Rosenfield suggests.

The viaduct between the two cities was constructed by the Tri-City Railway company for its Elm street car line. No walks for pedestrians were built. Mr. Rosenfield suggests that a new bridge of concrete, widened, and with walks on both sides, be constructed as a part of the city planning program for Rock Island. The hill district becoming the residential neighborhood of the city, warrants the need of an attractive entrance into the city. It is understood that the bridge is the property of the railway company, and in such an event consent of the company to put its property in harmony with the city planning commission's ideas will be necessary. Mr. Rosenfield's idea is to have the viaduct improved by making it of concrete, to make it more lasting and substantial, and to add to its beauty, by planting vines on either

side of the house and the viaduct, to the secretary of agriculture and to the office of public roads.

Efficiency of intelligent and sympathetic cooperation between the federal and state governments has been exemplified in the adoption and administration of the federal aid laws for highway improvement. No more effective object lesson for the inspiration to patriotic endeavor on the part of our citizenship is presented than that of the national and local governmental agencies working together in the task of providing roads usable all the year round for the marketing of the products of the fields, forests, mines and streams where millions toil daily. Primary use of the roads is basically a local problem and the extension of help by federal and state legislation is a demonstration of the interest of all the people in the economic and social needs of the man at either end of the road and in the comforts of his family.

Good Road Is Shortest.  
"That some highways may be connected in an interstate system subject to other uses does not detract from the fact that a good road is the shortest distance from producer to consumer. To foster the very essential home support and at the same time to maintain the general supervision necessary for an extensive road program, a combination of state and nation is desirable."

Based on information gathered in the states of the Mississippi valley, the conclusion of your petitioners is that the office of public roads should be enlarged into one of the most energetic and useful in the department of agriculture and that the present federal aid system be undisturbed.

CORDOVA  
Work is progressing rapidly on the electric light line. The power is to come from the Peoples Power company of Rock Island through the Fairfield Light & Power company's lines.

The 3-day chautauqua closed here Thursday evening. The programs were well attended and enjoyed by all.

R. J. Guinn is confined to his bed with sciatic rheumatism.

Miss Gertrude Meyers of Davenport is visiting here.

Make Your Own  
BUG KILLER  
P. D. Q.

You can easily make at home a full quart of the strongest bug-killer for 35c. enough to kill a million bedbugs, roaches, fleas and ants. This recipe will not burn, rot or stain the clothing and is entirely different from any other formula we know of, as this will kill the eggs.

Procure your drugist a 50c package of (Pecky Devil Quinine) P. D. Q. then you will have the chemical made expressly to rid hotels, hospitals and dwellings of pecky bedbugs and other insects.

Impossible for the pecky devil to exist with the proper use of P. D. Q.

## ACCIDENT CASE TO BE SETTLED

City Asks Frasier-Davis Company  
to Make Good Under \$70,000  
Bond—Other Business.

The city commissioners Monday afternoon closely examined the contract made with the Frasier-Davis Construction company of St. Louis, Mo., on the Sixteenth avenue storm drain, in view of ascertaining what provisions were made to indemnify the city from loss in case of accident.

The viaduct on Fourteenth avenue and Forty-sixth street, which connects Rock Island and Moline, could be made a beautiful and substantial bridge. A plan to improve it should be incorporated into a city planning platform.

The viaduct could be made of concrete and widened so as to give way for walks on either side, as a safety against the traffic for pedestrians. It can be made beautiful, both by the natural beautiful scenery around it and by planting vines along it.

The Argus endeavors to use every suggestion received by it. It enlists the cooperation of the city and asks for more ideas, which will receive immediate attention. Send all suggestions to the City Planning editor of The Argus, so that they may be considered at the next meeting of the city planning commission, to be held soon.

port spent Saturday and Sunday with Mrs. Ragoda Armstrong.

The town bridge which was washed out by the high water, has been filled in this week.

Jess Reynolds is building an addition to his home.

Frank Nofaker is hauling the rock from the old warehouse to his farm on Slocum street, east of Albany.

Charles Slinger is able to be about town after an attack of pneumonia.

Our schools have all started now. Harry Goding, Cordova, and Miss Wallace have charge of the community high school in the Methodist church building.

C. S. Pettit and Richard Ely have opened an ice cream parlor in the Stockwell block.

Miss Louise Smith visited relatives in Cordova this week.

Charles Craig spent Saturday and Sunday with his folks at Muscatine, Iowa.

Helen Reynolds is teaching fourth grade in Rock Island this year.

Lois Shumate has entered Augustana college for the year.

Anna Fromme is taking a course at Brown's Business college.

Charles Mumma of Nelson, Neb., well known to many Cordova folks, passed away at his home Monday after a short illness.

BURGESS PASTOR  
RESIGNS CHARGE

(Special to The Argus.)  
Rev. Agnes who has been pastor of the local church for the past two and a half years, resigned Sunday and will preach his farewell sermon next Sunday morning.

Mr. Agnes has accepted a call to the Presbyterian church at El Paso, Ill., and will probably move to his new charge at once. The good wishes of the entire community goes with the reverend and his family as they were much liked by all who knew them.

Don't Spoil Your Hair  
By Washing It

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulitised coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get Mulitised at any drug store and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Be sure your drugist gives you Mulitised.

(Adv.)

## ASPHALT PLANT MAN EMPLOYED

City Commissioners Hire Consulting Engineer to Insure Laying of Good Pavement.

The city commissioners Monday afternoon adopted a resolution appointing Monroe L. Patisig, consulting engineer of Des Moines, Iowa, as plant inspector for paving materials now being used in Rock Island by the McCarthy improvement company.

Mr. Patisig will set up his own laboratory and make tests of asphalt and other materials. He will keep a check on proportions of sand, asphalt and other materials and the grading of materials to be used. An important work will be the check taken on the temperature of the asphalt, which is often put down hot.

The city intends to give citizens who are paying for the paving all protection possible in getting the best of pavement. The mixture of the materials and the spreading of them is equally important. Mayor Harry M. Schriver announced that nothing is to be left undone in insuring the life of the new pavements being laid. Mr. Patisig will have his headquarters at the plant in Davenport, and will keep a complete record of his work.

Of Future Value Also.  
In checking up on the pavements in future years the record will be of big value, inasmuch as the record will show the mixture, temperature and other details surrounding the paving when laid. These records will be of special value in determining causes for bad spots in the paving and the general life of the same.

The services of Mr. Patisig have been employed by the cities of Davenport and East Moline, and his work has been highly recommended.

Will Rheumatism Again  
Bind Your Hand and Foot?

There are thousands of victims of rheumatism who dread the approach of damp wintry weather, for it means to them a return of the pangs of Rheumatism.

If you had Rheumatism last year and treated only the pains of the disease by rubbing with liniments and lotions, you can be sure that soon again you will be in the shackles of this relentless foe. You may get some slight temporary relief from the pangs of the disease by the use of these local remedies, but Rheumatism is too real and relentless a disease to be rubbed away.

If you wish to break the shackles of the disease, and free yourself from its domination, you must reach the source of the disease.

So many cases of Rheumatism come from a tiny germ in the blood that you should try a remedy that has proven satisfactory in thousands of cases. S. S. S., the fine old blood purifier, cleanses the blood of all impurities, and removes all disease germs that may creep into the blood. Begin taking S. S. S. today, and if you will write a complete history of your case, our medical director will give you expert advice, without charge.

Address: Chief Medical Adviser, S. S. S. Laboratory, Atlanta, Ga.

Salvation Army  
CORPS TO LISTEN  
TO MAJ. ENGVALL

Major Oscar Engvall, division officer, of Chicago, will conduct a meeting at the local Salvation Army corps, Twenty-first street and Fifth avenue, Rock Island, on Wednesday, Sept. 22, at 8 p. m.

The major will speak in the Swedish language, and all Scandinavian people are heartily invited to attend. Special music by the Moline Salvation Army band will be a feature of the evening.

ARSENAL EXAM. OCT. 2.  
An examination for the appointment to fill the vacancy in the position of messenger boy at \$480 per annum with \$240 bonus salary, will be held at Rock Island Arsenal on Oct. 2.

Get Plumbing Report.  
Frank L. Yerbury, city plumbing inspector, made a report on the annual convention of the American Society of Sanitary Engineers,

NEW TASTELESS  
CASTOR OIL BOTTLED  
IN THE LABORATORY

New Tasteless Castor Oil Sold Only in Bottles Labeled Kellogg's Tasteless Castor Oil.

Kellogg's Tasteless Castor Oil is bottled in the laboratories of Spencer Kellogg and Sons, Inc. Insist on Kellogg's Tasteless Castor Oil, laboratory bottled, with direction on the label. It's the same good old-fashioned castor oil that doctors prescribe, with the disagreeable taste removed—a 100 per cent pure castor oil. Put in airtight bottles, properly labeled. Kellogg's Tasteless Castor Oil comes to you with all the strength and purity of the good old family remedy—but all nauseating taste has been removed. Think that a boon this is to mothers and the little folks! Sold by all good druggists. If you want a castor oil absolutely without nauseating taste, insist on genuine laboratory filled bottles plainly labeled Kellogg's Tasteless Castor Oil. Three sizes, 15c, 25c and 65c.—(Adv.)

## A Way to meet the Shortage of Laundresses

Maid servants and man servants are not so easily obtained as they were once upon a time. Laundresses, too, are becoming fewer.

There is a shortage. Not merely a local temporary lack—but a shortage of help that is national and promises to be lasting.

But in this quandary are you going to resort to the scrubboard, to the lifting and splashing and the all 'round discomfort of the old washday? There is a simpler and better way—a way free of all bother and toil. It is our modern laundry way.

And it is a safe and sure way—only pure soft water and mild white soap are our cleansing agents. You'll like the glossiness of our ironing and the promptness of our delivery also.

The shortage of laundresses should occasion you no inconvenience. Simply telephone us and our driver will call for your family bundle.

Send it to the Laundry
